Another loss to "Mile. Mischief" is that of Miss Elizabeth Brice, a pretty girl with a sweet voice, who goes to take the most important part in "The Mimic World." Her place will be filled by Miss Gertrude Millington.

To encourage the show girls he has in "The Queen of the Moulin Rouge" in their love for their art, Tommy Ryley has given each one a small part, and, in order to create "atmosphere," he told Paul Potter something of the temperament of every one separately, and the dramatist gave each lines in keeping with her disposition.

### The "Family's" Railroad

The business man, to save time, or perhaps for the sake of economy, may put up with inconveniences in traveling. But as one father expresses it, "It's different when I take my family."

The New York Central Lines is distinctively the route over which to take or SEND the family, for they get the finest Pullman and dining car service, the best road-bed, the safest block signal system known, and the scenic route from the West to the East along the historic Hudson River and through the picturesque Mohawk Valley. And if the head of the family isn't along, the journey can be made with the same confidence and comfort you enjoy in your own home.

The Price Is the Same. P. & G. Naphtha Soap sells for no more than ordinary naphtha soap.

P. & G. Naphtha Soap is the best naphtha soap; and,

because it is best, you should use it. But if, in a year or two or three, some other manufacturer comes along and makes a better soap, you should use his.

It does not seem possible to produce a better naphtha soap than "P. & G."

The materials of which it is made are very much better than those used in ordinary naphtha soap.

"P. & G." contains no rosin. Most naphtha soaps'do. Rosin is cheap. That is why it is used in preference to materials that cost more and do better work.

"P. & G." contains cocoanut oil. No other naphtha soap does. Cocoanut oil is the highest grade material used in making laundry soap.

NAPHTHA SOAP

But—and this is important—the price of P. & G. Naphtha Soap is the same as that of ordinary naphtha soap. The materials are very much better. But the price is the same \_\_ 5 cents a cake.
